BOREDOM STUDIES

4TH EDITION

In accordance with previous editions, the **4th International Interdisciplinary Boredom Conference** aims to attract specialists on boredom from a wide range of disciplines to expand the knowledge we have already achieved concerning its **nature, history, causes, and consequences.**

The goals of this encounter are to 1) gather together boredom researchers from various academic disciplines worldwide; 2) make new and develop existing connections between them; 3) create the venue for interdisciplinary boredom-oriented academic discussion; 4) promote Boredom Studies as a justified, significant, and needed domain of scientific research; and 5) establish recurrent organizational and social structures that enable further development of **Boredom Studies.**
