CALL FOR PAPERS

Following the successful launch and development of the cross-disciplinary **Boredom Studies** and in accordance with previous editions, the **Boredom Conference** aims to attract specialists on boredom from a wide range of disciplines to expand the knowledge we have already achieved concerning its nature, history, causes, and consequences. The goals of this encounter are to 1) gather together boredom researchers from various academic disciplines worldwide; 2) make new and develop existing connections between them; 3) create the venue for interdisciplinary boredom-oriented academic discussion; 4) promote Boredom Studies as a justified, significant, and needed domain of scientific research; and 5) establish recurrent organizational and social structures that enable further development of Boredom Studies.

- Psychology and Psychiatry of Boredom
- Anthropology and Sociology of Boredom
- Animal Boredom, Evolutionary and Neuro-Boredom
- Boredom in Culture (Literature, Art, Cinema, etc.)
- Boredom in Education and Pedagogy

We would also like to encourage contributions outside that list for an **open session**.
